MAGNETIC GARMENTS: Most convenient, durable and economical form of magnetic treatment. Room 3, 242 S. Broadway.

DR. C. I. THACHER'S

MAGNETIC SHIELDS

PREVENT SICKNESS

CURE DISEASE

MAGNETISM never fails unless its action is defeated by the habits of the wearer

We make Magnetic Shields for every part of the human body and are thus enabled to treat every known disease.
Paralytics after years of steady decline have been restored.
Consumptives have been brought back to health.
Bright's Disease and other Kidney Complaints yield readily.
Magnetism never fails to cure Female Complaints of all kinds, imparting strength to weakened organs and is a specific for Painful Monthly Sickness. A full investigation will satisfy any reasonable person that we do not claim too much.

This Book is the first Street and Business Directory that this city has ever had, made on the Duplex Plan. The methods of distribution and character of circulation are of peculiarly great value to our patrons. This book is wholly different from any other Directory, and is an exclusive and Copyright publication. Its circulation is ten times greater than any other Directory. It reaches the most intelligent portion of the community.

It is the only Business Publication of the day that goes to the homes as well as to all business houses and offices in the city.

The Street Directory gives the names of all streets inside the city limits, and also of those outside the limits.

The Duplex System of giving street numbers is very simple. It means giving both numbers of both streets at every corner after the name of each street.

This system is superior to all others. By it any desired number can be located into its exact block, so that it can be reached by the shortest possible route.

The Business and Classified Telephone Directory is a very important feature of this book. It is an entirely new, novel, and time-saving reference work. There is no publication in existence having any similar features, either as to arrangement, compactness, clearness or general utility.

The price of the book is placed at a mere nominal figure, with the avowed purpose of attracting the largest possible use, and gaining the widest popularity. We only put the patrons in this book, all others are purposely left out.

DUPLEX SYSTEM

Copyrighted by NELSON A. WOLCOTT

All streets begin numbering with 100 at either Main or 1st streets as the base streets, and number east, west, north or south with 100 numbers to the block.

All streets crossing base streets have the north, south, east or west prefix, the others follow this system of numbering as if they also crossed.

100 at the River w th Downey Avenue as the base street is the rule in East Los Angeles ; this system is carried there as far south as Mission Rd, where the regular systen. prevails.

Odd numbers are on north and west sides of streets and even numbers on south and east sides

To find a street look first under its north, south, east or west prefix, if not there it is under its alphebetical arrangement, or else the name is obsolete.

The 1st column in the Street Directory gives the number of the street where it crosses streets, the 2d column has the number of the streets that are crossed.
